| Benefit Costs | | | | | | | |

Benefit Costs

Includes the employer-paid portion of estimated changes in employee benefit costs. The two biggest factors are health insurance rates and retirement rates. Health insurance is projected to increase by 9.7% or \$632 per position. Retirement rates are scheduled to increase by 5.9% from 10.39% to 11% of salary for regular employees and by 5.7% from 10.73% to 11.34% of salary for police and firefighters. Other benefit changes include a reduction in unemployment insurance rates, a reduction in Division of Human Resources rates for classified employees, and an increase in workers compensation rates.
